Ciudad de La Plata, **Argentina**

## About Me

I am a professional transitioning into the field of **data** and **technology**, with more than 2 years of experience in **stock management systems** and **data entry** in a corporate environment. Currently, I specialize in tools such as **Python**, **SQL**, **Excel**, and **Power BI**, with **advanced English** proficiency. I aim to join international remote teams where I can contribute organization, discipline, and analytical skills, while continuing to grow my career as a **Data Analyst**.

## Expertise Skill
